

Massman Acquires Site for Future Expansion in Alexandria, MN

On June 3, 2022 Massman Companies, Inc. acquired land in Alexandria, MN to support Massman's future expansion plans. Located off of Highway 27 West and Nevada street, the 80-acre property features wetlands, woods, and rolling land that will be the site for Massman's future expansion. The site is located less than two miles from Alexandria, provides great access to hotels, restaurants, and the conveniences of Alexandria.

In the coming years, Massman plans to expand its Villard, MN operations to the new site in Alexandria. Massman produces automated packaging machines and will use the site for machine design, assembly, machine testing, and customer demonstration. The site will play host to its customers that span consumer products, personal care, industrial, and food & beverage industries to showcase Massman's products and production capabilities. Initially up to 100 people will be based at the site including sales, customer support, engineering, machine build, and administrative functions. Massman will continue its successful operations in Villard, MN where currently 200 people are employed by Massman.

Massman is committed to sustainability. The new site will be developed to protect all the wetlands and woods. The site will utilize native plants in the current agricultural areas to provide a habitat for deer, turkey, birds, and animals. Site construction plans are in development. The development plans for the site will be designed to optimize sustainability and support Massman's commitment to employee wellness.

Massman is committed to the community and looks forward to furthering its development as a community leader in the Alexandria area.
